

## New Product Launch and FREE Pizza Tasting

Silly Yak Foods Pty Ltd is Australia's leading manufacturer of fresh, gluten-free bakery products.

Our product range is hand-made fresh for delivery, contains no added artificial flavours, colours or preservatives and is free of genetically modified organisms. We pride ourselves on manufacturing food which is not only gluten-free and delicious, but is also good for you. With this in mind we avoid additives, fillers, bad fats and other hidden nasties to bring you simple, tasty food.

We work hard to cater not just to coeliac sufferers but also to those suffering from related allergies, intolerances and dietary requirements. For this reason a large number of our products are dairy-free, yeast-free or egg-free. In addition we operate a 100% peanut-free manufacturing environment. Our range of "fructose friendly" products, which are safe for those who suffer from fructose malabsorption allergies, is also expanding.

At Silly Yaks we are very proud of our products and truly believe them to be of the highest quality available in our marketplace...but don't take our word for it, come to one of the free tastings taking place around Melbourne and judge for yourself whether Silly Yaks really is the best!

Come and try the new , improved recipe for our delicious and fresh pizza bases. We're sure that you'll find them great tasting and great value too.
